By The Sky

**Now
you are at
Tehran Milad
Tower**

This tower with the height of 435 meters is the 6th tallest TV tower in the world and can be seen through all parts of the city. Milad tower which enjoys Iranian engineers' art and knowledge, takes the 19th place among the tall buildings around the world. This tower has the biggest head structure among all TV towers around the world and has one of the biggest revolving restaurants in the world. 280 elevation, the 7th floor of the head structure can be reached by 6 high speed elevators in less than 40 seconds. Note that these elevators are the second high speed elevators in the Middle East, entitled the 3rd among the TV – telecommunication towers and the 8th in the world which soars visitors high in the sky and fill them with excitement.

All inclusive ticket will provide visitors with the tower's open observation deck, closed observation deck (Tehran municipality museum), sky dome and hall of fame visit.

The Tower foot building with 3 floors and a mezzanine which includes commercial units and exhibitional area is free for public. Children amusement area and food court are placed in the 4th floor which can be praised for its panoramic view and having masterpieces like "Leili and Majnoon" or "Abr o bad" that all of these with the beauty of fountains have added to this floor's magnificence.

Our colleagues will check your tickets at ground floor of lobby structure.

Visitors can take the tower's foot building elevators to reach to the higher floors in the head structure and will be served by the staff.

The remarkable 12 storey head structure known as the biggest head structure among all the TV towers in the world, is one of the main attractions of Milad tower. Ticket is needed for visiting all main floors.

Open observation deck

All the four told floors are accessible through the 7th floor of the head structure located at the height of 280 meters. The floor's café and panoramic view of Tehran are available at this floor. Snacks and smoking are prohibited in the outer space. Binoculars located in the balcony, provide visitors with vivid and clear pictures of the city. Models of world TV towers and Iranian ancient brick made minarets and also peep show which illustrates pictures of old Tehran are some of the other attractions of this floor

Sky Dome

Sky dome, the summit part of the tower embraces an artistic narration of Persian culture, civilization and history created by Doctor Reza Yahyaei. Holy flags of our imams' holy shrines have added to this floor's credit. The 120 meter height Antenna mast structure's sart point is here and it is accessible by a 2 person only staff elevator.

Hall of fame

It will be amazing. Visitors will walk through the history of Iran by marching on hall of fame getting familiar with influential figures made by doctor Alireza khaghani. Taking pictures is allowed so everyone can make their memories.

Revolving restaurant

Experience one of the biggest revolving restaurants at the elevation of 276 meters with different domestic and international cuisines which provides a 360 degree tour of Tehran view in about one hour. Epic sections of ferdosi's book, "shahnameh" have been illustrated all around the internal walls, narrating stories of this book.

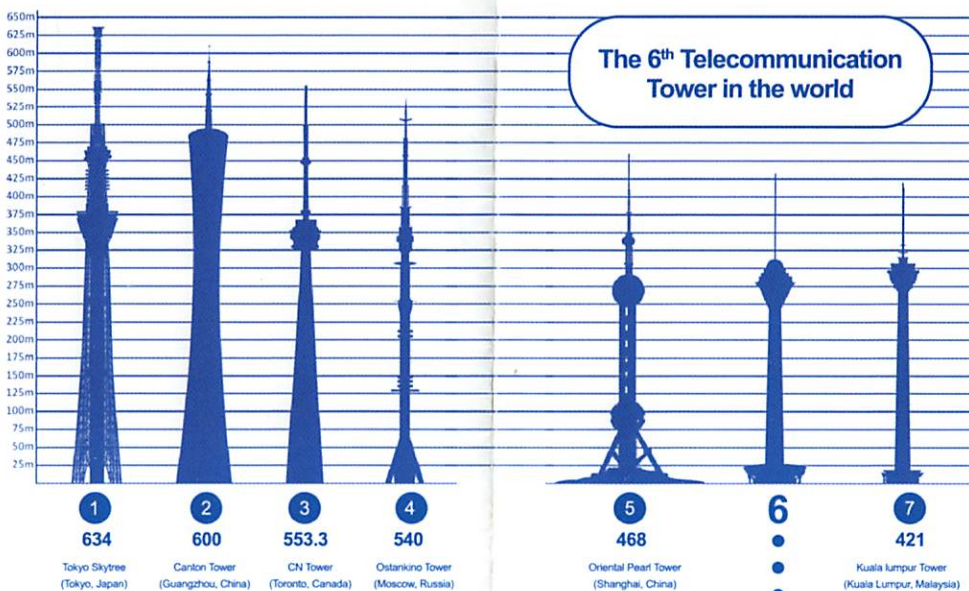

Café

Enjoy remarkable experience of soaring at skies with flavor of coffee and warmth of a cup of tea. This floor is available free of charge for all inclusive tickets, but services cost will be paid by individuals themselves. Extra café entrance ticket is required for those who have the only open observation deck tickets.

Closed observation deck (Tehran municipality museum)

261 elevation provides visitors with elegant view of Tehran alongside of which is placed with the old Hand writings of Iranian famous officials in the recent 200 years. This floor is also ornamented with historical wooden globes of George Pompidou belong to 17th to 20th centuries on which the name of "Persian gulf" is written, considered as a precious document for the name "Persian gulf".

What you should know

Pregnant women's health will be endangered boarding Tower's fast elevators accelerating to 7 meters per second. **1**

Children under the age of 2 will suffer from earache due to the air pressure change in fast elevators. **2**
